Board bag, wing bag, battery charger & strut bag, battery travel case

The Lift electric hydrofoil lets riders experience flight over almost any body of water at up to 25 mph, no waves required. The eFoil takes advantage of modern technology and expert craftsmanship to create a state-of-the-art watersports technology experience combining the best of surfing, hydrofoiling, and electric propulsion in an easy-to-use, unbelievably fun package.

Who is it for?

The eFoil is designed to offer an easy-to-use, exhilarating experience for users of all kinds, and we offer multiple board sizes and foil options to give different riders the experience they desire. We've designed the board for professionals to be able to push to the limits, and for new riders to be able to safely learn and have a fantastic experience. We recommend eFoil usage for riders ages 16+ and less than 250 pounds, and have found that users of any adult age and experience have been able to have fun and rapidly learn on the eFoil.

Awake's electric surfboards

Developed with key principles in mind; power, speed, and precision. Awake's electric surfboards are built for superior acceleration, sharp corners and fast straights, giving the user an unparalleled riding experience.

Crafted from high-end composites, these electric surfboards challenges the users with aggressive power. The slim rear offers rapid response and high agility, while the streamlined body design is sculpted with acute attention to hydrodynamics.

Included Everything you need:

- Power pack · Speed charger
- Wireless throttle · Foot straps
- Throttle induction charger
- Magnetic Power key
- Performance fins - MFC x Awake
- Board bag on wheels

Awake design

Awake design is a leading Scandinavian expression of power and agility within a clean and elegant body. Attention has been given to features which ensure ease-of-use without compromising the thrilling riding experience.

The result is an aggressive machine made with the user in mind, infusing technical advancements with intriguing looks. From nose to nozzle, Awake's premier creation; the RÅVIK, is a purpose-built speed machine

Awake technology

Awake's technology standard is cutting-edge engineering; focused on mechanical and electrical precision.

The core purpose at Awake is to offer extreme mobility by use of high-end technology.

Through user feedback, Awake products are a direct response to what the market desires, resulting in a patent-pending where it matters the most.

Be The Fun Everyone Is Talking About

Stand out from your competition and make your location the place to be for adrenaline pumping fun.

Summer gets a whole lot cooler with our water based products.

We don't just strive for the best quality. We strive for insane quality. We opt for welded seams, stitching and strict accountability throughout the process. We like to think we're geniuses, but really, it's the hard work, obsession for detail, and twenty years of experience that taught us everything we need to know.

Playground

The FunAir® Playground will keep kids busy all day. Young guests will climb, slide and launch until ready for bed. The Playground includes a climbing frame, slide and a Jr. version of the popular FunAir Blob. Designed in multiple pieces, this product is easy to deploy and store by a 2 – 3 person crew.

CHARGING

The emission-free electric scooter was designed for pure driving joy. The combination of iconic design and innovative impulse drive makes the SCROOSER unique and enables a first-class driving experience.

The SCROOSER is street legal on public roads in Germany and throughout the EU. At a speed of 25km/h it is mandatory to wear a helmet. We recommend to wear a helmet, but the obligation to wear a helmet varies from country to country. You can choose between four different driving modes - Sport, Comfort, Eco and Hand. The portable 36 V/20 Ah battery offers a range of up to 55 kilometres. After four hours of charging, the battery is fully recharged.

Different colour variants are available: strong matt black (Pearl Black), bright blue (Brand Blue), glossy black (Pitch Black), elegant white/brown (Foam White), and bright red (Juicy Red).

Designed, constructed and manufactured in Germany, the SCROOSER embodies the essence of Berlin in its unmistakable appearance. SCROOSER is a premium lifestyle product and offers everything that technically experienced design lovers could wish for.
